

TEMPORARY
THE STATE OF NEVADA
PERMIT TO CHANGE POINT OF DIVERSION,
MANNER OF USE AND PLACE OF USE OF THE
PUBLIC WATERS OF THE STATE OF NEVADA
HERETOFORE APPROPRIATED

Name of applicant: WALKER-WINECUP-GAMBLE, INC.
Source: UNDERGROUND
Basin: THOUSAND SPRINGS VALLEY-MONTELO-CRITTENDEN CR
Manner of Use: IRRIGATION
Period of Use: January 1st to December 31st
Priority Date: 05/13/1957

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 53195 is issued subject to the terms and conditions imposed in said Permit 53195 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire one year from approval at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The total combined duty of Claim 01864, Permit 2552, Certificate 478; Permit 2964; Permits 53193 through 53204 and Temporary Permits 75362-T and 75363-T shall not exceed 13,024.8 acre-feet annually for the irrigation of 3256.2 acres within the described place of use. A total of 1,132.91 acres of this land is supplemental to a surface water source. Any application to change the manner of use or place of use under either the surface water rights or the groundwater rights will require additional consideration and evaluation. Under no circumstances will any change be allowed that would result in an expansion of the total combined duty of 13,024.8 acre-feet annually.

The point of diversion and place of use is as described under items 5 & 7 respectively on the submitted application to support this permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.0 cubic feet per second, but not to exceed 750.40 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 14 day of May, A.D. 2007

for State Engineer
